Two FBI agents struggle with desire in the shadow of a killer, in the third installment of Aces & Eights.

Nate Gentry has been a rock for his two younger brothers since the day their mom walked out and left them with their abusive father. Now that they've grown up, he's watched Alex and Court fall in love and settle down. But Nate isn't made for romance. He keeps his relationships casual. And getting casual with his partner is a fantasy he can't shake...

Taylor Collins has feelings for Nate, too—and though they run hot, her best friend on the team is strictly off limits. Until a spark in his eyes says *Go for it*. But reaching out could prove to be a bad move now that they're working closer together than ever, and on the most dangerous case of their careers.

An investigation into a brutal series of murders is stirring up bad memories for Taylor, and neither she nor Nate can imagine how close to home it's going to hit. When it does, Nate will risk everything—including his heart—to keep Taylor safe.
