## **BENTLEY**

I haven't felt the compulsion in a long time. I thought it was behind me. But something about her makes me want to let go and give in. Explore the darkness lurking deep inside of me.

Her skin is soft, pale. I want to see marks where my fingers dig into her curvy hips. I want my teeth etched on her smooth flesh.

The sound of her voice makes my c\*ck grow hard. I think about those small hands stroking me under my desk. Want her on her knees, peering up at me, asking me what to do.

And yet something about him makes me want to pry beneath the surface and find out why he is the way he is. It's true when they say be careful what you wish for.

Because the only thing that could threaten Bentley Strongwell's hold over me is the darkness of his past...
