Westley Flagg isn't your usual lawbreaker. He's a poacher, a moonshiner and a prepper, out of necessity. Despite trying to live on the straight and narrow, he knows the law can turn things on you in a heartbeat. When Wes has to come up with money for his Grandpa's surgery, he gets involved with an unsavory group.

Living deep in poverty for most of his life, he's become resilient and flexible, but college education can only take him so far. A solar storm sends the northern lights as far south as Texas, and cascading failures in the grid cripple the nation. Now, without communications, Flagg has to prove he has what it takes to still survive.
