"What if American vaccines are tainted?"

That's the uncomfortable question Dr. Alex Knight, a brilliant young scientist, has to tackle for the President of the United States. Despite what years of evidence would have Knight believe, there IS something wrong with public vaccination programs. What will he uncover that not only risks his career, but his very life in pursuit of the truth? And how does this conspiracy threaten to toss the world into another Cold War?

Breakout is the first book in the Alex Knight series, written and produced by C. G. Cooper, and co-authored by Ronan Powers.
