Two weeks into the apocalypse, would your switch be flipped?

Colt's a no-nonsense air marshal who doesn't hesitate to use his skills. When he sets off on his own, leaving the comfort of a warm bed, good looking woman, and the University of Oregon behind, he's ready to be a solitary man. Rescuing a fifteen-year-old girl is the last thing he needs.

When you have nothing left, can you find the will to survive?

Dani's young, but she's no stranger to hardship. When the pangs of hunger drive her to the brink, Dani makes the difficult choice to steal. She knows she might get caught. She never expects a stranger to save her.

The end of the world brings out the best and worst in all of us.

Joining forces isn't part of the plan, but desperate times call for desperate measures. With danger around every corner, will Colt and Dani find the strength to trust each other? Or will the past ruin any chance of seeing the future?

The EMP is only the beginning.

Chaos Comes is the start of a new trilogy in the *After the EMP* saga, a post-apocalyptic thriller series following ordinary people trying to survive after a geomagnetic storm destroys the nation's power grid. It can be read first.
