I gave my submission to two dominant men. And now I'm carrying their baby.

Kylie:

I'm usually a good girl.

But that night, I learned just how bad I can be.

I let myself be dominated by two s*xxy, commanding men.

Before long, we were alone in a room - the three of us, me on my knees, blindfolded, my wrists gently tied above my head.

For one night, I gave myself to them completely and whole heartedly and it was pure bliss.

Now I'm pregnant and in the worst possible dilemma.

I don't know which dom is the father.

The Doms:

Kylie's submission was the sweetest we've ever tasted.

Together we claimed her, we owned her, we ple@sured her.

But we never intended to get her pregnant.

She wants to raise the baby on her own.

We won't let her slip away.

Her body and soul are ours to touch, to command, to dominate. We'll give her everything she ever desires.

And now that our secret is out, we're all in a hell of danger.

Our submissive needs our protection and we won't let her get away.

We're not going to stop until she and our baby are safe.
