The relationship between Galileo Galilei and Isaac Newton is like that of two complementary stages of a rocket. Galileo, the argumentative "wrangler" who demanded that the universe be examined through a telescope rather than by means of a philosophy book, provided the first liftoff, and Newton, the secretive mathematician who searched among his notes to find a mislaid proof for universal gravitation, put the world into orbit. Here, from award-winning journalist William Bixby, are their stories.

A green rectangular button with a white border. On the left side, there is a red icon of a document with a white PDF symbol and the word 'PDF' below it. To the right of the icon, the text 'DOWNLOAD FROM AMAZON' is written in white, uppercase, sans-serif font.
