"One of the most dramatic and emotional books I have read this year, *Girl On Point* is extremely well-written, showing the aftermath of a horrific crime which changes the lives of all involved. Cheryl Guerriero's story of a girl struggling with the death of her younger sister, and with the overwhelming guilt that her sister had been in the wrong place at the wrong time at her request, is incredibly powerful on so many levels." Readers' Favorite

Alexandra Campbell's life comes to a crashing halt the night her younger sister is killed during a convenience store robbery. Shattered by guilt, Alex distances herself from her friends and family. Months later, with the police investigation stalled, she fears justice may never be served.

Determined to avenge her sister's murder, Alex disguises herself and joins the gang responsible for the shooting. To identify the one who pulled the trigger, she must put her own life at risk in a world of dangerous criminals. But the longer she plays her new game, the more the lines blur between loyalty and betrayal.
