He's the man I should stay away from,
 My boss and the most enigmatic single dad on the planet.
 He's gorgeous and will do anything to protect his little girl.
 When he wraps his chiseled arms around my curvy body... The wrong feels so right.
 What if the press finds out?

I can see the tabloids now...

'Mr. Big CEO sleeping with his nanny.'

And what if they find out a bigger secret - He's the one who took my innocence and got me pregnant.
 Sh*t...this shouldn't have happened.
 The press is going to have a field day,
 And I could lose everything - including Damon Jacobs and his adorable baby girl.

"Nanny with Benefits" is a full length 60,000 words, standalone romance with no cheating and no cliffhangers, but with plenty of steam and a very satisfying HEA. This romance collection includes exclusive bonus content for your reading pleasure - Amy Brent (USA Today Bestselling Author)
