**"It's a dark and dirty place inside me, and as much as you try to make me good, I'll more likely turn you bad. So bad."**

Scott Danger. Heir to Danger Enterprises.

He's a Scorpio, I'm a Libra. He'll eat me alive.

But hey, destiny, zodiacs... who believes in that? I sure don't. I make my own future, thank you very much.

With Scott, though, I may have bit off more than I can chew. *Danger*. His name even comes with a warning label, and his passion and determination might just consume me. Handsome, rich, and sexier than any man should be, he's pursuing me hard and fast. Little ol' me, a bartender with a penchant for makeup and old country music.

He's dominant and seductive, a predator caged in gilded threads, and I want to run just so he'll chase me... catch me... take me. Shit. I'm in so much trouble, but I think I like it.

Am I tempting fate?

**Scorpio is a full length Romance with an HEA, no cheating, and no cliffhanger.**
