I'm dreaming of marriage and a baby - but I never imagined Brad would show up out of the blue with flowers and propose.

He was my best friend.

The man who broke my heart so many years ago.

Now, he's back to give me the one thing I want most in the world.

Brad:

Mia was my everything.

She was my best friend - but I never told her how I really felt.

Not even when I took her innocence.

Or moved away and left her with nothing but our promise:

If we were still single at 35, we'd get married and have a baby.

We haven't spoken since that night.

I can understand her resentment.

She doesn't know why I had to stay away.

Maybe I should tell her what really happened.

At first she might deny me.

Make fun of our stupid marriage pact.

But I'll make her remember my touch.

Devour every inch of her body.

Show her we're meant to be so much more than 'just friends'.

Today's Mia's 35th birthday - and I'm back to claim what she promised me.

The Marriage Pact is a stand-alone novel of 80000 words. Spring is in the air so you'll definitely fall in love with this hot-as-hell alpha and his HEA. I've also included some bonus novels for your enjoyment.
