Most of the truly wealthy in the United States don't live in Beverly Hills or on Park Avenue. They live next door.

America's wealthy seldom get that way through an inheritance or an advanced degree. They bargain-shop for used cars, raise children who don't realize how rich their families are, and reject a lifestyle of flashy exhibitionism and competitive spending. In fact, the glamorous people many of us think of as "rich" are actually a tiny minority of America's truly wealthy citizens—and behave quite differently than the majority.

At the time of its first publication in 1996, *The Millionaire Next Door* was a groundbreaking examination of America's rich—exposing for the first time the seven common qualities that appear over and over among this exclusive demographic. This new edition, the first since 1998, includes a new foreword by Dr. Thomas J. Stanley—updating the original content in the context of the 21st century.

Amazon.com Review

How can you join the ranks of America's wealthy (defined as people whose net worth is over \$1 million)? It's easy, say doctors Stanley and Danko, who have spent the last 20 years interviewing members of this elite club: you just have to follow seven simple rules. The first rule is, always live well below your means. The last rule is, choose your occupation wisely. You'll have to buy the book to find out the other five. It's only fair. The authors' conclusions are commonsensical. But, as they point out, their prescription often flies in the face of what we think wealthy people should do. There are no pop stars or athletes in this book, but plenty of wallboard manufacturers--particularly ones who take cheap, infrequent vacations. Stanley and Danko mercilessly show how wealth takes sacrifice, discipline, and hard work, qualities that are positively discouraged by our high-consumption society. "You aren't what you drive," admonish the authors. Somewhere, Benjamin Franklin is smiling. -- *This text refers to the hardcover edition.*
